

PRE-PROPOSAL FORM
PPI (Small-Scaled Initiatives Program)
Small Grants 5.4

Every Civil Society Organization applying to PPI must first submit a pre-proposal form according to this framework. Applicants with a positive assessment on their pre-proposals will be invited to submit a complete proposal with a required framework provided.

Please read carefully document PPI 5.4 Rules and Criteria available on www.uicn.fr or www.ffem.fr before replying to the key-points required below and in the most accurate and complete way. We recommend you pay a particular attention to explain in the pre-proposal how your project meets the eligibility criteria (paragraph n°3 of Rules and Criteria) and selection procedure/criteria (paragraph n°4 of Rules and Criteria) considering that the selection will be based on these specific points.

Informations must be completed within this form, **with a maximum of 5 pages**, using font Arial, size 11, under Word format.

Please return your pre-proposal to: ppi@uicn.fr before **31st of March 2019 at 6.00 pm (GTM +1)**

THEMATIC OF YOUR INTERVENTION

(Only one box must be checked)

- Improvement of territorial governance
- Conservation of threatened species
- Management of Protected Areas (PA) and their fringes
- Combating poaching and illegal wildlife trade

Email of the person in charge of project (please note that if missing, the NGO won't receive any answer on its submission):

Due Date:

1. Country:

2. Name of organization:

3. Project title:

4. Total amount of project (in euros):

5. Requested amount to PPI (in euros):

6. Financial donors and their financial contribution (in euros): *(contribution of the NGO itself, and/or the local communities, contribution of national and international donors (name, amount requested and obtained (please specify))*

7. Duration of project (15 months max):

8. Location of project:

Brief description of the ecosystem, biodiversity, approximate area covered by the project, number of villages and target persons and if possible provide geographic coordinates and a [GoogleEarth](#) map or attach a map with your file for more clarity on the project location.

9. Conservation and development issues the project is addressing:

10. Specific goals of the project to face issues:

11. Planned activities:

12. Expected outcomes and impacts (please specify measurable ones):

13. Budget (specify amount for each activity):

14. Experience led by the NGO in the area, in the field, if not, understanding of the area and the local communities:

15. Programs led by other organizations in the area and adjacent areas in fields relevant to the proposed project, and planned terms of collaboration:

16. If applicable, please specify the mechanisms of sustainable financing for the conservation that you will implement (development of value chains, ecotourism, diversification of the incomes of the conservation actors, partnership with the private sector, ...)
