CONTEXT

The Caisse des Dépôts et Consignations of Gabon - hereafter CDC - signed a grant agreement worth USD 300,000 with the Green Climate Fund (GCF): the UN's financial mechanism attached to the United Nations Framework Convention on Climate Change (UNFCCC).

The Gabonese Republic wishes to set up a support program with the Green Climate Fund for the identification of climate projects in order to realize its national contribution to the fight against climate change.

Part of this funding will be used for the remuneration of an international expert who will be responsible for the implementation of the GCF support program on behalf of the National Climate Council: National Designated Authority to the GCF chosen by the Minister of Economy of the Gabonese Republic.
