

INVITATION

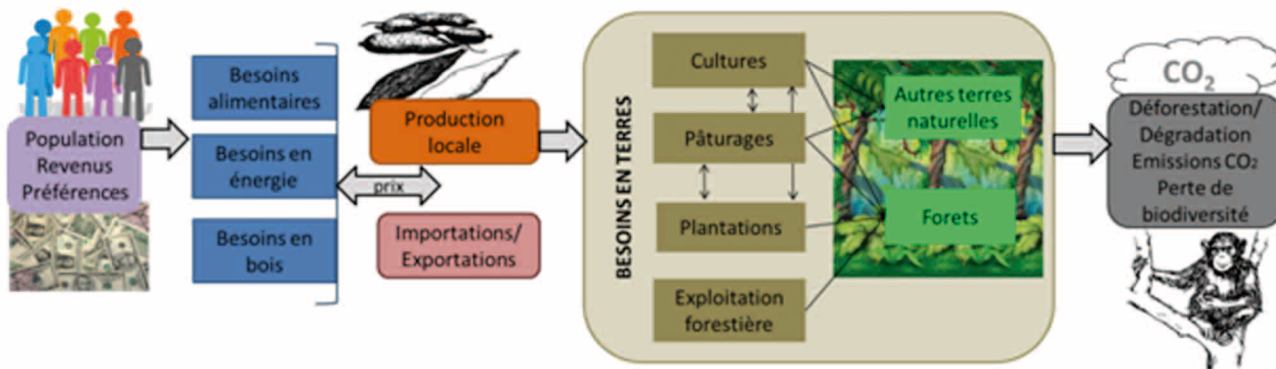

CONGO BASIN SIDE EVENT

REDD+ AND MODELING OF FUTURE DEFORESTATION TRENDS AND IMPACTS ON BIODIVERSITY IN THE CONGO BASIN

Where: "Espace Génération Climat" area, Room 7 - Paris le Bourget, When: (01:00pm - 02:30pm)

AGENDA

1. Contribution of Congobiom model to the development of REDD policies, **MOSNIER Aline**, researcher, IIASA
2. Ensuring REDD+ policies address and respect biodiversity-related safeguards, **Rebecca MANT**, Senior programme officer, UNEP-WCMC
3. Presentation of the countries case studies (Cameroon, Congo, DRC), **Adeline MAKOU DJOU**, **Didier Bokelo** and **Roland Gyscard Ndynga**
4. Debate

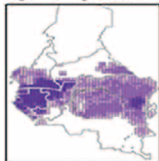

Modeling as a checking tool of future changes in a sub regional context strongly influenced by development goals.

Modélisation de la distribution des déforestation (2010-2030) dans le scénario de base

Habitat potentiel pour les grands singes 2010

Modélisation de l'impact des changements de couverture des sols sur l'habitat potentiel disponible pour les grands singes
