# Key messages from the GEF

- **GEF6 Sustainable Forest Management projects** are welcome and expected from COMIFAC countries and Angola. The goal of the GEF6 SFM strategy is to achieve **multiple environmental benefits**.
- Four objectives drive the SFM program with 1) the **conservation** of High Conservation Value Forests, 2) the enhancement of forest management while maintaining **flows of forest ecosystem services**, 3) the **restoration** of forest ecosystems, and 4) an increased **regional and global cooperation** for knowledge sharing and transfer.
